HORRIBLE ACCIDENT.—A young man nained Joseph Russell, while at work at Mr. Joseph Reach's wood yard, on Royal street, between Princess and Queen, yesterday evening, was the vic-tim of a horrible accident. He was engaged in sawing wood and while in the act of pushing a stick against a rapidly cycloring circular saw by some acci-dent his fent hand came in contact with the buzzing teeth. In a second of time the member was nearly severed from the arm, it having been sawed com-letely through from the wrist to the little hager. With blanched face and blood spurting from the ghastly wound he attracted the attention of others employed in the yard and they took him to the Infirmary. Upon reaching that institution it was found that his nerycus system had received a territle shock, and preparations were made for quieting him lefore an operation could be attempted. He was given a bath and and other means were employed to bring him into a sedate condition. It was some time, however, before it was deemed safe to proceed, and it was not until late in the evening that he was found in a suitable state for the terris ble ordeal which his injury rendered thevitable. Drs. Quackenbush and Ashby then performed the operation by amputating the hand above the wrist, and the unfortunate man as could be expected.

STOCK SALE.-The initiatory sale at the Fauquier stock market came off at Calverton, on the 22nd inst., as was advertised. The day was good, the attendance about two hundred, was good, the stocks entered on the books and on ground was good. The buyers were few. A goodly number of horses, a wagon and farming implements were sold. The stock entered on the books amounted to \$5,000. The horses sold gave satisfaction to both huyars and sellers. The sale was conducted on the "fair and square basis," no by bidding and of course it proved satisfactory to all. As it was the first sale ever gotten up by the promoters, it gave

them encouragement. Another safe will take place at Calverton at an early day. A horse sale is spoken of to take place at Delaplane, as soon as the upper end yeomenry will endorse this plan.—Warrenton In-
